Recognition of School Committee Chair: In recognition of your leadership, Gregory Thompson, School Committee Chair from 2019-2020. This was certainly quite the year as chair with the Covid-19. Thank you.

Chair: It's been my pleasure, great team. I'm happy to be a part of it. Thank you for the recognition.

Recognition of Richard Freccero: This is a happy and sad occasion. We would like to recognize Mr. Freccero for his 9 years of service on the School Committee, that's on top of his 23 years as ELHS principal. So he has dedicated 32 years of his life to ELPS. And I think we are all the better for it, so thank you we are going to miss you. This is well deserved. Well actually, much more well deserved, but this is all we could afford.

Richard: Thank you I just want to center o one comment. What's been wonderful about serving on the School Committee "We always focused on what was best for the kids"? I just feel so proud that I was a part of this, so proud that I am a part of the five members. We worked hard together for the students best interest, so I know that you will keep up that focus all the way through. So all of you thank you. Do the best for our kids please!

Old Business

5.1 FY2021 Budget Discussion

Chair: I do know that Mr. Smith has had a meeting with the Town Manager. We sent in our budget request to the Town Manager and Town Council Finance Oversight Committee. They discussed it once. I followed up with an email. I haven't heard anything back from them since I sent the email. I did watch the Town Finance Oversight Committee last week. I wanted to discuss what is actually happening in the process. I am a little concerned that we as a town are not necessarily following the Charter. We are not executing the proper checks and balances. Why I say this is the Town Finance Oversight Committee is designated by Town Council. They are a legislative body. We as the School Committee are an executive body for the Schools and the Town Manager is an executive body for the Town. The Charter requires the executive boards to create the budget which we have done in conjunction with the Superintendent, Asst. Superintendent and Town Manager. Then those two budgets are sent forward to the Town Council after approval from both Town Manager and School Committee. I believe what we are doing is deviating from that process because the Town Council appointed a Finance Oversight Committee and they have had meetings with the Town Manager and developed a budget. On the Finance Oversight Committee, there are three Town Council members and one Dept. Head, they are creating a budget and sending it back to the legislators. I believe we are in violation of the checks and balances. That means if the school budget is forwarded to the Council for discussion, then again that would be in violation of the Charter. The process is not looking as it's supposed to this year. Again the Finance Oversight Committee is made up of two Town Council members, the Town Council, President (who sits in and can discuss everything), and a Dept. Head. I'm not sure how one Dept. Head votes on other department heads requests. I don't despair their intentions, I believe they have good intentions. I think they are working hard and trying to do what's best for the Town. I'm just really concerned about the process.

Mr. Smith: I spoke with the Town Manager; she was very candid and open to continue to work with us. She also recognized that she did see Mr. Thompson's email. And knows that we voted on a School Committee budget at our budget hearing which had that reduction of \$143,000, that is what she will be presenting as they go before the Town Council to present a draft budget. She also spoke about the uncertainty of what the revenue will look like and when we may have a budget from the state. On the town side they did furlough roughly 19 employees, and on the school side we chose not to furlough, we kept our employees. One concerning point is that the state has moved back the deadline for excise tax and meal tax until September 15th. She is also aware that we got hit with opening school guidelines. A lot of give and take between the School Dept. and Town Manager. The town is keeping a COVID-19 spreadsheet.

Chair: I'm addressing the process. I think the discussion with the School Dept. and Town Manager is appropriate. I think as a non-elected sub-committee to act as the executive to create a budget is what I am questioning. It's almost as if the Town Council is acting as Board of Selectmen that we no longer have. I understand all those points and it should be a cordial relationship between the School Dept. and Town Manager. I think the Finance Oversight Committee is overstepping in my opinion. Our proposal is different from the Finance Oversight Committee, and according to the last meeting, those members on the committee are pretty confident that theirs will be the one that passes with Town Council. I'm worried if we allow this precedence be set, to have this non-elective sub-committee of legislatures create our budget number, that is different than our request and the Town Managers. The Town Manager works with Finance Oversight Committee to create a budget that they are pretty sure will get passed by the Town Council, why wouldn't the Town Manager want that process. It's an easy process. The hard process would be creating a budget that goes to Town Council, to send down to Finance Oversight Committee. I just have a problem with how the process has happened this year in terms of Finance Oversight Committee going through everything before it's been submitted as an official budget and manipulating our budget before it goes to Town Council.

William: I agree with you Greg, what should have happened with the budget, it should have been presented to Town Council and at that time they could have brought in the Finance Oversight Committee to review it. That's the way it should have been done. My understanding, prior to COVID they were presented with a preliminary budget not an official budget. There were instructions for the Town to cut a couple of million dollars because they were concerned about the tax rate, so to your point they are doing it backwards. The Finance Oversight Committee does not have the authority to cut our budget the Town Council does. I personally don't believe that the Town Manager has done her job. She was supposed to send our budget to Town Council. I don't think that has happened yet, that's the problem. There are a lot of unknown factors. The state is worried about loss and revenues, they are starting to talk about the Student Opportunity Act, level funding, Chapter 70. Other districts are passing their budget with as much hassles as us.

Chair: More than one option for funding. I don't know if it's appropriate to have an unelected board decide on our budget. In the end the Town Council could agree on our full budget, funding it by local tax increase, not proposing we want to go with that. The town has priority on education. This is a very unique year. I agree with that. It is not for the town Finance Oversight Committee to decide on our propose budget based on revenue, because the council itself could create revenue easily. I'm just concerned that we are not following the process.

William: My suggestion is to reach out to the President of Town Council and express your concerns. Because they are not following the Charter where the Town Manager presents to the Town Council and council has the authority to cut?

Sarah: After watching the Finance Oversight Committee meeting, I think because we haven't presented the budget, there is also some confusion what our budget entails. Some of things spoken about that were included in our budget, like the Feasibility Study. I know which is no longer part of our budget. I was going back checking my notes that were put out there publically, the Feasibility Study was included in our budget and it's not. It would be great for our committee to present our budget, that one thing led to confusion.

Chair: In that meeting, we didn't have representation; other departments were fully represented to create a town-wide budget without representation from the School Committee. Should not be happening that way. I don't think it's fair to the students of this town. You are talking potentially (11) less staff members this year based on the decision of an unelected board this is inappropriate and our students will suffer by this.

Sarah: We should have representation there to answer questions that may not be clear. Because there hasn't been a formal presentation points of concerns. Some representation from this committee to be present to ensure clarification so that the Finance Oversight Committee can make a formed decision, when they make a recommendation for us to the full council.

Chair: They should not be developing the budget, line by line, item by item to send back to itself. It's ridiculous to have a sub-committee to Town Council send a budget back to the council and have three members and a Dept. Head as part of that committee. I know everyone has good intentions; we all need to work together. We all need to get through this together, it's a unique year, but it's no excuse to abandon the Charter, no excuse to get rid of checks and balances. I would urge everyone out there to watch the Town Council Finance Oversight Committee from June 24th. We are working for the people of this district, moving forward.
