[1] If the Town DPW is to install, then a deposit of \$500 will be collected before installation. The actual cost will be based on time, equipment and materials (including pipe, fittings, and back fill), plus the appropriate overhead.	
[2] \$150.00 minimum charge	
[3] Includes water breaks caused by contractors; no charge for farmers for seasonal use.	
[4] charge per month from inception of building permit plus DPW staff time.	
[5] Hydrant connections will require backflow device to be tested when set up. There will be an additional \$100 fee for testing.	
Bacteria testing of New Water Mains to be sampled by Town and sent to Town lab. \$300 flat rate	
If the water is stubbed out to the property line already, the builder need only pay the \$1,500 license and the amount of the sales and service to install the meter.
