East Longmeadow Board of Health Food Code Amendment
Unanimously passed by Board of Health 11/28/2018

1. The East Longmeadow Board of Health approves an amendment to the food code which eliminates the ability of non-profits using the exemption of having a person in charge who is trained in food protection listed under 2-101.11 if the non-profit is serving foods that are considered potentially hazardous, or if the proposed activity is one the director or an inspector deems to need someone trained in food safety present in order to keep the consumers of the food safe. Examples of potentially hazardous foods include meat or products that must be cooked or maintained at a specific temperature to avoid food born illness.
